Aiming to contribute extensive expertise in IT infrastructure, cybersecurity, risk management, and compliance (ISO 27001, SOC 2, GDPR) to a senior leadership role in IT or Information Security. Focused on driving robust security frameworks, optimizing operations, and delivering strategic solutions that support organizational growth and resilience in dynamic, innovation-driven environments.

Education

MBA , Sathyabama University, 2010
B.E. in Computer Science and Engineering, Anna University, 2006

Core Competencies

- IT Infrastructure Strategy
- Cloud Infrastructure (Private, Public & Hybrid)
- Data Center Operations
- Project & Program Management
- Artificial Intelligence (AI)
- Machine Learning (ML)
- Information Security & Compliance
- Vendor & Supplier Management
- Budgeting & Cost Optimization
- Disaster Recovery & Business Continuity
- Team Leadership & People Development
- Technology Transformation
- IT Risk Management & Audit Readiness
- Service Delivery Management

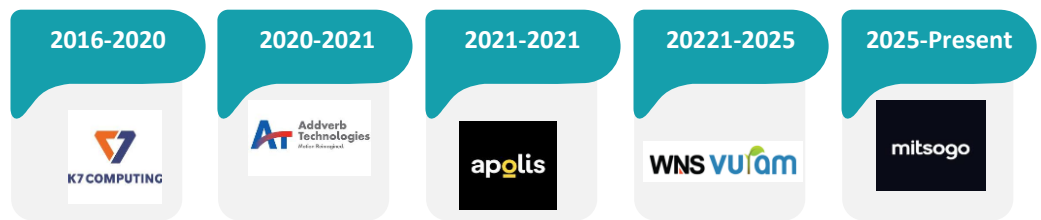

Technical Skills

- Information Security & Compliance: Expertise in ISO 27001, SOC 2, PCI-DSS, GDPR, and NIST frameworks.
- Security Technologies: Skilled in SIEM, DLP, IDS/IPS, Firewalls, Endpoint Protection, VAPT, and DevSecOps solutions.
- Risk Management: Proficient in threat modeling, vulnerability assessments, and penetration testing.
- Cloud & Infrastructure Security: Managing AWS, Azure, GCP, and implementing Zero Trust Security models.
- IT Governance: Leading security audits, policy creation, access control, and incident response.

Profile Summary

- **Certified Information Security Manager (CISM)** with nearly 18 years of progressive **leadership** in planning, establishing, and managing **IT infrastructure** across diverse sectors including IT, ITES, Healthcare, and Manufacturing, delivering tailored solutions aligned with industry needs.
- Led comprehensive **IT infrastructure transformations** resulting in heightened **system reliability** and **operational cost reductions**, considerably enhancing **organizational efficiency** and **business continuity**.
- Spearheaded **cloud migration initiatives** that increased **scalability** and **agility** while reducing **infrastructure costs** by optimizing **resource utilization**.
- Leveraged **AI-driven automation** within a **Zero Trust framework** to ensure **PCI-DSS and HIPAA compliance**, **enhanced security through proactive VAPT**, and **optimized DevSecOps**—streamlining RFP, RFQ, and BRD reviews for stronger, risk-mitigated outcomes.
- Implemented robust **disaster recovery frameworks** that minimized downtime, safeguarded **revenue streams**, and ensured seamless **business continuity** during critical incidents.
- Directed deployment of **IT service management platforms**, improving **user satisfaction** and reducing **incident resolution times**, thus enhancing overall **service delivery** and **support operations**.
- Established and enforced **IT governance frameworks** that improved **regulatory compliance**, reduced **audit findings**, and mitigated **operational risks**, supporting **ISO 27001** and **SOC 2 certification** achievements.
- Negotiated and managed **vendor contracts**, achieving up to **35% cost savings** without compromising on **service quality**, contributing to significant **budget optimization**.
- Championed innovation through **AI and automation adoption**, successfully implementing platforms like **Cursor, ChatGPT, and Gemini** to boost **IT support productivity by 60%** and streamline processes.
- Built and led **high-performing cross-functional teams**, focusing on **mentorship, upskilling, and retention**, resulting in elevated **team engagement** and consistent **project delivery within budget and timelines**.
- Drove comprehensive **information security initiatives**, securing compliance with **CISM, ITIL, Infosec standards**, and safeguarding organizational data against evolving **cyber threats**, earning the **Stellar Performer Award**.

Career Timeline (Recent 5 Organisations)

Work Experience

- Mitsogo Technologies Pvt. Ltd., Chennai**
Senior Manager – IT Operations | Feb 2025 – Present
- Vuram Technology Solutions Pvt. Ltd., Chennai**
IT Manager (Senior Group Manager) | Sep 2021 – Feb 2025
- Apolis, Chennai**
IT Infrastructure Manager | Jun 2021 – Sep 2021
- Addverb Technologies Pvt. Ltd., Noida**
Senior Manager – IT | Oct 2020 – May 2021
- K7 Computing Pvt. Ltd., Chennai**
Assistant Manager – IT | Jan 2016 – Oct 2020

Network Security: Experienced with VPN, SD-WAN, IAM, PKI, SSL/TLS, Secure DevOps, and firewall solutions (Fortigate, SonicWall, Checkpoint, Palo Alto).

Security Tools: Utilizing CrowdStrike, Qualys, Zscaler, SentinelOne, and FortiSIEM platforms.

Endpoint Security: Implementing EDR, DLP, BitLocker, and Secure Boot for endpoint protection.

Vulnerability Management: Conducting scans and remediation using Nessus, OpenVAS, and Qualys VMDR.

IAM & Access Control: Managing Okta, Active Directory, SSO, MFA, PIM, and PAM systems to ensure secure and compliant access controls.

Backup & Disaster Recovery: Overseeing Veeam, Azure Backup, and BCP/DR planning processes.

Cloud & Endpoint Management: Microsoft 365 (O365), Microsoft Intune, Managed Desktops, Device Compliance

Infrastructure Management: Managed Servers, Managed Network, Managed Storage, Patch Management

IT Service Desk & Operations: Leading Service Desk Management, Incident/Problem Management, SLA/OLA Compliance

Cybersecurity & Response: Cyber Threat Response Team, Threat Hunting, Security Incident Response

Business Development: Responding to RFPs, RFQs, Due Diligence Activities, Proposal Writing

Prashath Hospitals, Chennai

IT Manager | Feb 2015 – Jan 2016

Nexgen IT Solutions, Chennai

Senior System Administrator | May 2011 – Feb 2015

GSM Net, Chennai

System Engineer | Mar 2007 – Apr 2011

Responsibilities:

- Leading global IT security operations and ensuring ongoing compliance with industry standards such as ISO 27001, GDPR, SOC 2, PCI-DSS, HIPAA, and HITRUST across multiple locations.
- Managing risk assessments, security audits, and implementing data protection strategies to safeguard organizational assets and information.
- Overseeing deployment and optimization of endpoint security solutions and firewall management, including tools like CrowdStrike, Qualys, Fortigate, and Zscaler.
- Driving security awareness programs and insider threat mitigation initiatives to enhance organizational security culture and resilience.
- Coordinating IT infrastructure management, including cloud security, disaster recovery, and business continuity planning to maintain robust and secure IT environments.

Highlights:

- **Led global, multi-site IT infrastructure management**, optimizing datacenter and cloud environments to ensure 99.9% uptime, scalability, and seamless service delivery across hybrid platforms.
- **Directed complex IT projects and migrations**—including datacenter consolidation and cloud platform transitions—delivering all initiatives on time and within budget while aligning with strategic business goals.
- **Managed vendor relationships and technical accounts**, negotiating contracts and SLAs that resulted in up to 35% cost savings without compromising on service quality or delivery timelines.
- **Developed and controlled multi-million dollar IT budgets**, optimizing resource allocation and reducing operational costs by streamlining infrastructure maintenance and expansion activities.
- **Built and mentored high-performing, cross-functional teams**, fostering a culture of liability and continuous learning, leading to a 90% team retention rate and increased productivity.
- **Designed and implemented comprehensive disaster recovery and business continuity plans**, minimizing downtime by 40% during critical incidents and ensuring uninterrupted business operations.
- **Spearheaded information security and compliance programs**, driving adherence to ISO 27001, GDPR, SOC2, and other regulatory frameworks, reducing audit findings by 50% and mitigating enterprise-wide risk exposure.
- **Enhanced cybersecurity posture through proactive risk assessments, vulnerability management, and incident response**, leading to a 60% improvement in threat detection and mitigation capabilities using SIEM, EDR/XDR, and IAM technologies.
- **Pioneered IT infrastructure automation and process optimization**, leveraging AI and automation tools to reduce manual tasks by 60%, improve operational efficiency, and support scalable cloud-native architectures.
- **Fostered executive-level communication and cross-department collaboration**, delivering clear, actionable insights on IT security risks, compliance status, and technology roadmaps, enabling informed strategic decision-making.
- **Successfully planned, deployed, and managed large-scale IT setups**, ensuring alignment with business growth and operational goals.
- **Directed datacenter and cloud transformations**, enabling agility, efficiency, and cost savings.
- **Implemented enterprise-grade disaster recovery frameworks**, ensuring business continuity with minimal disruption.
- **Established and enforced infosec and compliance practices**, meeting industry standards and regulatory mandates.
- **Showcased strong vendor management and negotiation skills**, driving cost efficiencies and service quality improvements.
- **Recognized for building and leading high-performing teams**, fostering a culture of liability and innovation.

Courses

- Certified in ITIL, VMware, CCNA, CISA, CEH, Malware Analysis, and AI Practitioner programs, showcasing a strong foundation in IT infrastructure, cybersecurity, and emerging technologies.

Certifications

Certified Information Security Manager (CISM) and Hexnode Certified Expert
